

The very different properties of Kondodys Ready To Use Bordeaux paint

It is to be stated that the conventional Bordeaux Mixture may not consistently keep the very essential qualities required.

Whereas Kondodys Ready To Use Bordeaux Paint emulsion is made under technically sustained formulae.

This stable Bordeaux Paint is well agitated and pour gradually to 50 litres of pure water to make perfect Bordeaux mixture.

Against stem rot disease it is thoroughly mixed and applied as painting on the surface.

Kondodys Ready To Use Bordeaux mixture is a fungicide as well as a pesticide also.

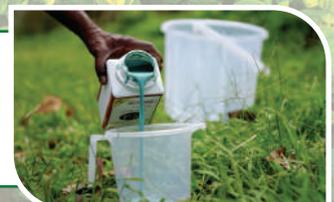

The organic paste as an ingredient in this Paint is acting as a fungicide also and helps quick absorption to the leaves.

Weatherability, structural quality and forceful sticking to the plant leaves results.

The best Bordeaux Mixture could be applied even during intermittent rains also. Fungus being attracted by poisonous copper ions and gets suicided

So this product is effectively a curative one also even on already fungus affected plants.

Neem oil destroys the reproductive strength of pests. Acts as a repellent. The azardictant in the neem oil kills the feeding nematodes.

Neem oil is a mixture of Triglyceride, sterols, fatty acids (Omega 6 x 9), Stearic acid and Palmitic acids.

Neem oil emulsion increases the spray coverage on leaves.

Kondodys Ready To Use Bordeaux Mixture thus maintains its most superior qualities than the conventional mixture

Rubber, Coconut tree, Arecaut tree, Cardamom plants, Peppervine, Cocoa Plant, Orange, Rumbotan, Pomogranate, Bettle plant and similar plants grown under humid, tropical climate are all treated with Kondodys Ready To Use.

This Bordeaux Paint protects the plant from leaf rust, black rot, koleroga, quick wilt, capsule rot, pink disease, powdery mildew, back pod, charcoal rot, leaf fall.

The efficacy retains to 40 to 50 days if sprayed with Ready To Use Bordeaux Paint

Phytotoxicity is comparatively less in Kondodys Ready To Use Bordeaux Paint

On account of the above spectacular characteristics, Intellectual Property of India granted Patent to Xavier Thomas Kondody Managing Partner, Sanson Chemical Industries, Kottayam 686002
